## Play anywhere

FOOOTY is a new invention that makes it possible to play anywhere you want. The unique patented 2D construction element enables you to create 3D shapes. When connecting the FOOOTY elements, using the clever FOOOTY click system®, you can create all popular ball shapes to kick and throw around... and when you use your imagination you can create anything!

FOOOTY is fun to make and great to play. Finished playing? Just put it back in your pocket.
